## 設計起點 Background

雞蛋糕是臺灣最常見的路邊攤點心，可說是臺灣最具代表性的傳統點心之一。以此為題，我們開始著手搜集雞蛋糕的相關資訊。

Egg pancake is the most commonly seen and also one of the most representative traditional snack in Taiwan. As a result, we started to do research on this typical taiwanese snack.

## 觀察訪問 Observation & Interview

實地觀察雞蛋糕攤販的營業過程，並訪問了解雞蛋糕的製作方法、原料存放方式、銷售情況等等。

In order to understand the method of making egg pancakes, the preservation of ingredients, the sales situation of egg pancakes, etc., we observed and interviewed the egg pancake vendors.

因為親自動手參與製作，從備料、烘烤等等到清理，而對雞蛋糕有了更具體的了解。於是我們開始思考，這個路邊攤點心還有沒有其他可能性呢？如果將雞蛋糕搬進便利商店，或許會發展出不一樣的面貌……？

Making egg pancakes by ourselves gave us more inspiration about our design. Is it possible to make any changes on it? What if we place it at a convenience store...?

## 動手實作 Hands-on Egg Pancake-making

在了解了雞蛋糕現在的製作方式及販賣過程後，我們自己動手操作，實際體驗整個雞蛋糕的製作流程。

After the interview, we learned about the sales situation of egg pancake and its recipe. To know more about it, we tried to make egg pancakes by ourselves.
